

Software QA Analyst

Let's start with why.

This is how we work at Profound Impact. Start with why, focus on things that matter. Get stuff done while taking ownership of success and maintaining a high level of creativity and technical expertise.

Our purpose to create a profound impact extends into society as we engage our team with learning opportunities, social impact practices, and professional development to fuel collaborative innovation and trust. We work as one in a flexible work environment that gives you the autonomy to work at your best. We support our team with programs to match donations, provide volunteer time off, develop new skills, and commit to sustainability. Your values contribute to Profound Impact's direction creating inclusivity and belonging in all that we do.

Help us connect great people to do great things at Profound Impact!

Job Location: Waterloo/Guelph/Oakville/Mississauga/Toronto regions, Ontario, Canada

Role Description:

Profound Impact is always on the look-out for Software QA Analysts to join our growing development team. Our product is a fine combination of AWS Serverless architecture with Graph technologies. The ideal candidate is a fast learner with familiarity with both black/white box testing and also unit tests, stress testing or other testing methods. You are someone who is always looking to break things!.

Responsibilities:

- Design and implement testing plans for new code and enhancements to existing code
- Develop manual & automated test cases
- Develop processes for scalable testing models and methods
- Integration testing
- Manage development tickets in the defect tracking system (JIRA)
- Communicate quantitative and qualitative findings from test results to the development team
- Spot areas for improvement to enhance the platform's efficiency

ProfoundImpact
