ProfoundImpact

Benefits

We help you save time, increase revenue opportunities and move the needle on your organizations ranking.

Increase Revenue

By automatically matching with industry partners and research collaborators to create competitive grant applications.

Save Time & Money

Through automated grant-to-researcher match opportunities. Our tool finds the best fit match to support your Research Administrators & Researchers. More funding, less hassle.

Move the Needle

Increase your organizations ranking through higher grant application success rates and recruiting top researchers.

No app solution.
No login for researchers.
Matches made **easy**.

Product

We combine private and public data using AI and data analytic tools to optimize your research funding opportunities. More grants, better matches, increased funding.

Existing Data

You upload or provide us with your existing data which we store in our secure platform.

Easy Insights

Research offices get insights on research trends, funding opportunities and communication analytics. No technical knowledge required.

AI Auto Match

Using our proprietary algorithms, we auto match your data with multiple online sources for funding opportunities.
